Come to class ready to pedal, pump and transform your body!

**Pilates:** Traditional mat class designed to build strength and muscle tone, enhance balance and mobility and bring the body into harmony. The variety of exercises target all major muscle groups, but they are designed to particularly work the body's core – or "powerhouse". The core includes the superficial and deep muscles of the abdomen, lower back and hips. This core muscle group connects and stabilizes the upper and lower body and promotes optimal functioning of the two halves together.

**Raise the Bar:** This multi-level class uses the barbell as a primary resistance tool, to improve your muscular strength and endurance. Balance and coordination will also be challenged when moving through all planes of motion using multi-joint, functional and compound exercises.

This low to medium intensity yoga class is designed to build muscle and core strength with stability using weights. Benefits includes increased strength, flexibility, and balance, leaving you feeling more energized!
